Landscapes Design & Visualization: Key Capabilities

Consolidated Overview

End-to-end visibility of all systems systems (cloud and on-premise) and and system groups across your landscape

Graphical Visualization

Intuitive graphical representation of representation of system relationships, dependencies, and connections

Seamless Integration

Built on SAP Cloud ALM Landscape Landscape Management data including systems, cloud services, and services, and business services

Security Notes Calculation

[SAP Community Blog](#)

Native Security Notes Recommendations in SAP Cloud Cloud ALM

Security notes calculation is now natively integrated into SAP Cloud ALM, Cloud ALM, replacing the dependency on Maintenance Planner for security patch recommendations.

- Centralized visibility into missing security notes across your landscape
- Prioritization based on CVSS scores and business criticality
- Streamlined patch compliance without switching to Maintenance Planner
